The Beautification meeting opened at 6:30 PM.

Garden Prep – Those in attendance wanted to thank the DPW for the wonderful job they have done in prepping the gardens for planting. The garden beds are in tip-top shape for planting on May 23.

April 25th – Earth Day/Arbor Day – Wrap up of the day. Although we didn't get many people, it was decided that it was a good start since it was the first year that we participated. The soil testing was popular and the speaker was very good. It was suggested that perhaps next year, the whole event could be at the Meeting House or even in front of the Mill instead of at Ed Young's parking lot.

Plants – All plants are on target for delivery the morning of Saturday, May 23 at the Triangle. They will be delivered at 8:00am. Volunteers are needed to help unload the plants from the truck at the Triangle at that time.

Thank You tothe Schwabs for their support and help with the vendors from the Farmers' Market on Earth Day; Elise Fila for her donation of planter boxes and pots for the courtyard at Village Hall and her numerous plantings around the Village; Myra Lenz, Dona Bronkie and Paul Krieter for their help in dressing the gardens.

"It takes a village."
